

# Index

---

## A

Adaptive management .....	2, 5, 18
Aquatic A1 and A2 subwatersheds .....	107
Aquatic and riparian habitat .....	4, 49
Aquatic species .....	4
Aquatic/riparian/hydrologic restoration .....	94

## B

Base level direction .....	6
----------------------------	---

## C

Coarse woody debris .....	46
Cold forests .....	80
Collaboration .....	10
Comment letters .....	1
Cool shrub .....	80

## D

Dry forests .....	79
Dry grass .....	80
Dry shrub .....	80

## E

Economic and social needs .....	69, 70
Ecosystem Analysis at the Watershed Scale .....	14, 16
Ecosystem processes and functions .....	24, 79

## F

Federal trust responsibility .....	5, 74
------------------------------------	-------

Fire management ..... 3  
Forest composition and structure ..... 89

## H

Harvestability ..... 61  
Hierarchy ..... 6  
Hydrologic processes ..... 57

## I

Integrated management direction ..... 2

## L

Landscape dynamics ..... 3, 24  
Landscape restoration ..... 78  
Landslides ..... 31  
Listed species ..... 67

## M

Moist forests ..... 80  
Monitoring ..... 2, 5, 21

## O

Old forest ..... 88

## P

Products and services ..... 4, 69

## R

Rangeland ..... 48, 88  
Rangelands composition and structure ..... 93  
Recovery plans ..... 67, 78  
Restoration ..... 77  
Restoration direction ..... 6  
Restoration priorities ..... 77

Riparian areas ..... 80  
Riparian conservation areas ..... 49, 53  
Risk management ..... 9  
Roads ..... 36, 85  
Roads analysis ..... 36  
Roads management ..... 3

## S

Short-term risk ..... 2, 10  
Snags ..... 46  
Social and economic needs ..... 4  
Socio-economic-tribal component ..... 68  
Soil movement ..... 55  
Step-down ..... 2, 5, 9  
Subbasin Review ..... 11, 13  
Succession/disturbance regimes ..... 77

## T

Terrestrial and aquatic species ..... 60  
Terrestrial source habitat ..... 3, 40, 87  
Terrestrial T watersheds ..... 3, 103  
Theme ..... 1  
Threatened and endangered species direction ..... 7  
Tribal rights and interests ..... 5, 74  
Tribes ..... 69, 74

## V

Viability ..... 61

## W

Water quality ..... 57, 99  
Watershed condition indicators ..... 56  
Wide-ranging carnivores ..... 66
