

Group 29

Figure 89--Percentage of watersheds within five trend categories of relative change in source habitats from historical to current periods for group 29, basin-wide and by ecological reporting units. Trend categories correspond to the following relative changes from historical to current periods: 2 = an increase of ≥ 60 percent; 1 = an increase of ≥ 20 percent but < 60 percent; 0 = an increase or decrease of < 20 percent; -1 = a decrease of ≥ 20 percent but < 60 percent; and -2 = a decrease of ≥ 60 percent. Number of watersheds from which estimates were derived is denoted by n.
